

PowerBOX

The PowerBOX is an outdoor five port PoE switch. You can use this device to switch power to our SXT or others. Since the device is designed for outdoor use, it can be mounted on a tower, or in other outdoor locations.

The unit has five shielded Ethernet ports. It can power up to five PoE capable devices with the same voltage (max total out is 2A).

Less power adapters and cables to manage.

IEC Cord

Metal ring

Mounting loop

POE injector

Power adapter

DIN mount

CPU	AR7241 400MHz CPU
Memory	64MB 200MHz DDR RAM,
Ethernet	5x 10/100 Mbit/s Ethernet v
Extras	Reset switch, voltage and t
LEDs	11x LED (5x User LED)
Power input	PoE in: 5-30V Packaged with 24V DC 2.5
Dimensions	125x178x48mm
Max consumption	3W at 24V
Operating Temp	-35C .. +70C
OS	MikroTik RouterOS, Level4
